Memo to File

Telephone call from Mr. John Sultenstall from the Kennedy campaign committee in Boston. He is organizing a committee of scholars, etc. for Kennedy and wanted to know if I would add my name to the list. For example, Harold Urey is already represented. I indicated my doubt that this was a particularly effective way to operate and mentioned instead the conversation that I had had with Jim Doyle at the meeting with Schlessinger last Saturday. Ebb3at the Law School is preparing a memorandum on strategy and if this can come out fairly fast, it may indicate the best way to operate.

Sultenstall said that he would contact James Wine in Washington who is in charge of "Community Relations".
